MX-704

Network Type : LV

Infrared thermometer

Application:

- High performance infrared thermometer, suitable for detecting abnormal hot spots in electrical installations.
- Automatic measurement of the target temperature (°C and/or °F) without knowing the emissivity of the material or surface properties.
- Not suitable for human temperature measurement.

Features:

- Ratio distance/measure point: 12:1.
- Temperature range: from 32°C à +535 °C (-25°F – 995°F).
- Response time: 500 ms.
